

# ANGELS

Jett Prescott

You say I love to hate  
I say you hate to love  
Don't dare believe in faith  
It's not your kind of drug

Asking questions you don't have the answers to  
You're running around in circles without a clue  
Oh I'm begging you to hold me too

Cause I know you, little girl -- my heart will break if you don't try  
With no one to let us go  
We cry, we hope, and we need  
Angels

Take a chance on trust  
Not only if it's fair to you  
Imagine a world with only love  
Or would you stop to argue

You're asking questions you don't have the answers to  
You're running around in circles without a clue  
Oh I'm begging you to hold me too

Cause I know you, selfish world -- the televisions all we know  
With no one to let us go  
We cry, we hope, and we need  
Angels

Cause I know you, sweet emotion -- killing, loving, ease my soul  
With no one to let us go  
We cry, we hope, and we need  
Angels

These nights I lie awake I try to find the love inside and I  
I pray, I pray, I pray... If I lose my mind god help me find these angels

Cause I know you, little girl  
Your heart will break if you don't try  
With no one to let us go  
We cry, we hope, and we need  
Angels
