

HOT AIR BALLOON

Jett Prescott

In your hot air balloon you're a star
Sail through the sky in only dark
Sink us to the ground I know you are
Love

In your hot air balloon you'll go far
You're something else
You're something else

In your hot air balloon you're a star
Sail through the sky in only dark
Sink us to the ground I know you are
Love

In your hot air balloon you'll go far
You're something else
You're something else

In your hot air balloon you're a star
My love
In your hot air balloon you'll go far
My love

Float to the moon I know you can
Float to the moon my love
Float to the moon I know you can
Float to the moon my love

In your hot air balloon
In your hot air balloon
My darling, my love
My darling, my love

In your hot air balloon
In your hot air balloon
My darling, my love
My darling, my love

In time you'll just sail away
In time you'll just float away
